

Protect your loved ones by staying current with your vaccinations.

Join us at the upcoming vaccine clinic.

- Older adults are at high risk for severe illness from COVID-19.
- The CDC estimates that more than 50 million deaths can be prevented through immunization between 2021 and 2030.
- You can receive the updated COVID-19 vaccine regardless of the type of vaccine you originally received or how many booster vaccinations you have already had.
