

Infection Prevention in Arizona's Critical Access Hospitals— Managing Systems to Improve Quality: Hardwiring Your Systems' Changes

APIC Resources and Outcome Measure Worksheet

1. Is there at least one APIC reference or resource material that we reviewed today that you think could be useful in your hospital's Infection Prevention Program?
 - a. If so, please select one and briefly describe how, when and with whom you intend to share it.
 - b. If not, please briefly comment on what seems to be the mismatch between the materials and the needs of your hospital's Infection Prevention Program.

2. Please write the description (numerator and denominator statements) and list who needs to help you determine the feasibility of collecting the data.

- a. **Numerator**

- b. **Denominator**

- c. **Whose help will you need to determine whether it is feasible for your hospital to collect the raw data and calculate the rate on an ongoing basis?**
