

Immunization Branch Updates

7/13/22

New ACIP Influenza Vaccine Recommendation

- CDC director approved influenza vaccine recommendations by ACIP on June 22-23, 2022:
 - ACIP voted to preferentially recommend the use of specific flu vaccines for adults 65 years and older, including higher dose and adjuvanted flu vaccines.
 - If none of these three vaccines is available at an opportunity for vaccine administration, then any other age-appropriate influenza vaccine should be used

Pediatric Vaccine Updates

- June 2022: EUA given for
 - Pfizer use in children 6 months-4 years
 - Moderna use in children 6 months-17-year-olds
- July 2022: FDA approved Pfizer-BioNTech COVID-19 vaccine (Comirnaty) for 12-15-year-olds

VRBPAC Strain Composition Meeting Highlights

- On June 28, 2022, the FDA Vaccine Related Biologic Products Advisory Committee (VRBPAC) met and heard from:
 - FDA, CDC, WHO health officials
 - Modeling experts
 - Manufacturers: Pfizer, Moderna, and Novavax
- Following their discussion, a majority of the committee voted in favor of including a SARS-CoV-2 Omicron component in COVID-19 booster vaccines in the U.S.

Novavax COVID-19 Vaccine: Coming Soon...

- June 7, 2022: FDA Vaccines and Related Biological Products Committee (VRBPAC) voted to support Novavax primary series EUA
- FDA review still ongoing
- Novavax COVID-19 vaccine
 - SARS-CoV-2 recombinant spike protein (5 mcg) + Matrix-M adjuvant (50 mcg)
 - Primary series is two 0.5 ml doses given intramuscularly 21 days apart
- U.S. Government purchasing 3.2 million doses

CA vaccination rates in DSS-licensed Adult and Senior Care facilities

- June 2022 survey
 - Facility self-report, with 32% response rate
 - Residents
 - 89% fully vaccinated
 - 79% with first booster dose
 - 31% with second booster dose
 - Staff
 - 88% fully vaccinated
 - 78% with first booster dose
 - 27% with second booster dose
 - 4% reported as exempt

Table 4: Resident Vaccination Data by Facility Type Statewide (November 2021 through June 2022)

Facility Type	Resident % Fully Vaccinated	Resident % First Booster	Resident % Second Booster
Adult Day Program	71%	47%	19%
Adult Residential Facility (ARF) ₁	91%	82%	24%
ARF for Persons with Special Health Care Needs	91%	92%	47%
Residential Care Facility for the Elderly (RCFE) ₂	89%	80%	38%
Residential Care Facility for the Chronically ill	92%	81%	30%
Social Rehabilitation Facility	72%	41%	13%
Statewide Total	89%	79%	31%

Table 5: Staff Vaccination Data by Facility Type Statewide (November 2021 through June 2022)

Facility Type	Staff % Exempt	Staff % Fully Vaccinated	Staff % First Booster	Staff % Second Booster
Adult Day Program	6%	87%	72%	18%
Adult Residential Facility (ARF) ₁	4%	87%	77%	24%
ARF for Persons with Special Health Care Needs	2%	90%	92%	16%
Residential Care Facility for the Elderly (RCFE) ₂	3%	89%	81%	31%
Residential Care Facility for the Chronically ill	6%	95%	75%	46%
Social Rehabilitation Facility	5%	88%	67%	13%
Statewide Total	4%	88%	78%	27%

IF YOU WORK IN A HEALTH CARE SETTING...
BOOST YOUR HEALTH WITH COVID-19 BOOSTER DOSES!

PROTECT YOURSELF
You've worked so hard to help your patients. You owe it to yourself to prioritize your health by getting a booster. If you are 50 or older or immunocompromised, you need a second booster.

PROTECT YOUR FAMILY AND COWORKERS
With boosters, your chances of getting very sick from COVID-19 are much lower and you are less likely to spread COVID-19 to those around you. Boosters restore protection against COVID-19.

PROTECT YOUR PATIENTS
COVID-19 can be dangerous and deadly, especially for your vulnerable patients.

GETTING BOOSTERS IS ANOTHER EASY THING YOU CAN DO TO PROTECT THEM.
COVID-19 vaccines are safe with millions safely immunized. Maximize your protection against COVID-19 with boosters.

Get your COVID-19 booster dose at:

California Department of Public Health | Immunization Branch
IMM-1428 (5/22)

IN THESE TIMES, EVERYONE COULD USE A BOOST

BOOST YOUR PHYSICAL HEALTH | **BOOST YOUR SOCIAL HEALTH** | **BOOST YOUR PROTECTION AGAINST COVID-19 NOW**

COVID-19 vaccines **work very well** at preventing severe illness, hospitalization, and death. Booster shots are extra doses that help maximize your protection against COVID-19.

Adults who are 50 and older or immunocompromised need a **second booster** of the vaccines made by Pfizer or Moderna at least 4 months after the first booster of any COVID-19 vaccine. COVID-19 vaccines and boosters are **safe, effective, and free.**

DON'T WAIT, VACCINATE!

Three ways to find free vaccines near you

- ✓ Visit [vaccines.gov](https://www.vaccines.gov) to find a walk-up site.
- ✓ Book an appointment on [My Turn](https://myturn.ca.gov) (myturn.ca.gov) or call (833) 422-4255.
- ✓ Check with your doctor, nurse or local pharmacy.

IMM-1416 (5/22)

2nd Booster Dose

VISION: mRNA VE for hospitalization among immunocompetent adults ≥18 years by number of doses and time since last dose receipt and variant predominance, mid-Dec 2021–mid-May 2022

* Only estimated among adults ≥50 years of age

CDC, preliminary unpublished data. Individuals with prior infections excluded. Adjusted for calendar time, geographic region, age, sex, race, ethnicity, local virus circulation, respiratory or non-respiratory underlying medical conditions, and propensity to be vaccinated.

What Should SNF's Do About A 2nd Booster?

- ~75% of U.S. nursing home residents had received 1st booster by mid-February, and are eligible for 2nd booster now (at least 4 months after 1st booster)
- SNF's should inform eligible residents and staff about recommendations and provide information on how to access a second booster dose if interested ([MyTurn](#), [Vaccines.gov](#))
- SNF's may choose to administer second booster doses to eligible residents and staff

How can SNFs administer COVID-19 vaccines?

Option 1: Enroll in **myCAvax**

Option 2: Work with a long-term care pharmacy that allows sub-contracting

Option 3: Do both!
