

Creating Your Post-Acute Collaborative (PAC) Planning Sheet

PAC Partners

Organization Name	Key Staff

List hospital staff you want to have part of the PAC efforts.

What services do your partner facilities need to provide for your patients? Is there anything unique?

Data Transparency

Data Metric	Rate
Average monthly number of patients sent to a skilled nursing facility (SNF)	
Average monthly number of patients assigned to a home health agency	
Percent of transfers to post-acute that readmitted within in 7 days	
Percent of emergency department treated and released back to post-acute	
Current readmission rate (all-payer)	
HSAG Medicare readmission rate	
Average Length of Stay (LOS) with SNFs	
Average LOS for acute care	

Setting Expectations

List at least one primary goal for the development of your PAC.

Improve transitions of care with your PAC

What educational topics will be useful to provide to your collaborative partners?
