

Readmission Interview Tool

Suggested script to seek participation

"We are working to improve care after hospitalization for our patients that have been recently hospitalized. We noticed that you were here recently and now you're back. Would you mind telling me about what happened between the time you left the hospital and the time you returned? This will help us understand what we might be able to do better for you and what we might be able to do better for our patients in general. It shouldn't take more than 5 to 10 minutes. Would that be okay with you?"

| Patient Name (optional): | | | | | | | | |
