# For an All-Day Educational Workshop

## Preparing for and Building the Future of ESRD

**August 22, 2019**

**Albuquerque, New Mexico**

Join Network 15, the New Mexico transplant centers, and the New Mexico Department of Health State Survey Agency in preparing for the future of end stage renal disease (ESRD).

Topics to be presented include:

- Hypertension and Blood Volume Management (During a Professional Breakfast)
- State Survey Preparedness: Best Practices and Lessons Learned
- Emergency Preparedness: Lessons Learned and How to Prepare
- Home Modalities
- Transplant

This all-day learning and collaboration event is provided at no cost to all ESRD patients, families, caregivers, and professionals, including but not limited to: nurses, administrators, technicians, physicians, and stakeholders.

Continuing Education Units (CEUs) will be offered.

Vendor and exhibitor tables will be available.

Look for registration coming early this summer!
