CDPH Infection Prevention Webinars

The California Department of Public Health (CDPH)—with the California Association of Long Term Care Medicine (CALTCM), California Association of Health Facilities (CAHF), and Health Services Advisory Group (HSAG)—hosts a bi-weekly (2nd and 4th Wednesdays) webinar on infection prevention for long term care facilities to discuss any recent updates on Coronavirus Disease 2019 (COVID-19) and provide a venue for addressing questions. The webinars focus on infection prevention guidance for SNFs. It is recommended that SNF infection prevention staff attend. Local health departments and SNF administrators, directors of nursing, and medical directors are also encouraged to attend. Please register in advance; space is limited. A recording link will be available the day following the webinar.

Day of the webinar event: Call-in telephone number for all webinars is: **415.655.0003**. You may join via computer (using your computer or telephone for audio) or by telephone only. (If you join the video portion of the webinar, for a better webinar experience we recommend you have Webex call your phone—don't dial in yourself).

CDPH All-Facilities Phone Call: For additional CDPH information, join the All-Facilities phone call on the alternate weeks between the webinars (8 a.m. PT, 1st and 3rd Tuesdays of the month). Dial 844.721.7239, access code 7993227.

Care Coordination Webpage

Care Coordination

Care coordination is a key priority for the Centers for Medicare & Medicaid (CMS) to improve quality and achieve safer and more effective care. However, gaps in care, such as poor communication and ineffective discharge processes, remain a challenge. To address these gaps, HSAG provides evidence-based tools, strategies, resources, and training needed to improve care coordination.
