The Centers for Medicare & Medicaid Services (CMS) has set a goal for all U.S. nursing homes to achieve a Quality Measure Composite Score of 6 percent or less. The Composite Score includes the 13 long-stay quality measures publicly reported on Nursing Home Compare. As the Medicare Quality Improvement Organization for Florida, Health Services Advisory Group (HSAG) can help you reach this goal! That's because HSAG is not just your partner in quality improvement. We're an extension of your team.
