California Code of Regulations Title 17 Section 2505 Reporting Requirements

- Entities are required to report SARS-CoV-2 results to public health.
 - Report to local health department where patient resides.
 - All POSITIVE and NON-POSITIVE (negative, indeterminate, etc.) results must be reported.
 - Molecular (PCR), antibody, and antigen tests must be reported.
- Electronic laboratory reporting (ELR) is the preferred reporting method.
 - Not all entities have technical capabilities to report via ELR.
- CalREDIE Manual Lab Reporting Module (MLRM) is an alternative reporting method.

What is CalREDIE?

- CalREDIE (California Reportable Disease Information Exchange) is the statewide communicable disease reporting system.
- Used by laboratories, healthcare providers, local health departments, and CDPH for communicable disease reporting and surveillance activities.
- Reporting to CalREDIE allows the reporting entity to meet their Title 17 section 2505 reporting requirements.

Manual Laboratory Reporting Module

- MLRM allows a user to log in to CalREDIE and submit results.
 - Patient Details
 - Result Details
 - Specimen Details
- CalREDIE uses the patient's address to route the report to the local health department where the patient resides.
- Easy to use interface.
- Each user will need to complete an account request form.
- Only SARS-CoV-2 results can be reported via MLRM.
- Entities in Los Angeles County and San Diego County are not eligible for MLRM.
 - Contact Los Angeles County Public Health or San Diego County Public Health for instructions on how to report.
