NHSN Updates

New Up-to-Date Definition

- Beginning reporting week
9/25/23–10/1/23
 - Individuals are considered up to date if they have:
 - Received a 2023–2024 updated COVID-19 vaccine, or
 - Received a bivalent COVID-19 vaccine within the last 2 months.
 - Under the new recommendations, **most individuals will not be up to date** with COVID-19 vaccines.

How does NHSN define up to date on vaccines?

Cumulative Vaccination Coverage	
<i>Note: Facilities submit Weekly COVID-19 Vaccination Cumulative Summary data by completing the questions on this form. As of March 28th, 2022 facilities also have the option to use the Person-Level COVID-19 Vaccination Form and select the "view reporting summary and submit" to submit these data. Using the person-level forms is recommended to ensure that individuals who are up to date with COVID-19 vaccination are categorized appropriately according to their vaccination dates.</i>	
1. * Number of residents staying in this facility for at least 1 day during the week of data collection	<input type="text"/>
2. * Cumulative number of residents in Question #1 who are up to date with COVID-19 vaccines.	<input type="text"/>
Please review the current definition of up to date ; Key Terms and Up to Date Vaccination.	
3. * Cumulative number of residents in Question #1 with other conditions:	
3.1 * Medical contraindication to COVID-19 vaccine	<input type="text"/>
3.2 * Offered but declined COVID-19 vaccine	<input type="text"/>
