The Antipsychotic Performance Improvement Project (PIP) Challenge

A healthcare improvement bundle is...
*a proven approach that helps providers more reliably deliver the best possible care for residents/patients.*

The five Collaborative Change Package bundle actions to successfully reduce the use of inappropriate antipsychotic drug use are:

1. Design and create a ____________ environment.
2. Create ____________ relationships.
3. Provide ____________ activities.
4. Identify and treat ____________ and ____________ conditions.
5. Define a ____________ approach to minimize the use of antipsychotic medications.

My SMART Goal:

_________________ would decrease the long-stay antipsychotic medication use rate from ________% to ________% by ____________.

- Specific
- Measurable
- Attainable
- Relevant
- Time-Bound
