

# Vaccine Update

## Pharmacy Partnership and Beyond

# CDC Federal Pharmacy Partnership Update

- **CVS & Walgreens will give dose #1 at clinic #3**
- CVS & Walgreens will not be returning to facilities for additional vaccine clinics
- It is the responsibility of the facility to arrange for dose #2 for staff and residents
- Pharmacy Partnership Program is projected to finish by March 31st, 2021

# Current Options for Dose #2 (off site)

- In-store pharmacy appointments:
  - CVS, Walgreens, and Rite Aid are offering in-store appointments; Pfizer vaccine is available at selected locations
  - Walgreens will be doing outreach to schedule in-store appointments for dose #2
- Usual healthcare provider
- Local health department vaccine clinics
- Mass vaccination clinic sites

# COVID-19 Vaccination in SNFs after the FPP

- Plans are in development, final options pending but may include
  - Arrangements with long-term care pharmacies
  - Arrangements with retail pharmacies for additional site visits
  - Partnership with local health departments
  - Partnership with local healthcare facilities
- Please stay tuned for more information
- Consider reaching out to your local health department in the meantime
