

# Staff Infection Prevention Campaign Pledge

As an important member of the dialysis healthcare team,

*I Pledge*

to protect my team and our patients from infections by:

- Knowing and following ESRD standard precautions guidelines.
- Learning and following the Dialysis Infection Prevention recommendations of the CDC.
- Washing my hands and wearing gloves at all appropriate times.
- Practicing safe medication preparation and injection practices.
- Asking questions about infection control policies and procedures when the answer is not clear.
- Holding my colleagues accountable for hand hygiene and infection prevention practices.
- Creating a “Safe Zone” in the dialysis treatment room that is free of judgement or consequence when reminding each other to follow infection prevention policies and procedures.
- Promptly communicating suspicious symptoms and unusual findings concerning infection of the dialysis access.

I promise to set an example for my colleagues by taking the right steps to prevent infections to keep myself and my patients safe.
