

Readmission Interview Tool

Suggested script to seek participation:

"We are working to improve care after hospitalization for our patients who have been recently hospitalized. We noticed that you were here recently and now you're back. Would you mind telling me about what happened between the time you left the hospital and the time you returned? This will help us understand what we might be able to do better for you. It shouldn't take more than 5 to 10 minutes. Would that be okay with you?"

Patient Name (optional): _____

Readmission: ____/____/____ Index Admission: ____/____/____ Last Discharge: ____/____/____

Responses provided by (check all that apply): Patient Caregiver Other: _____

What prompted you to return to the hospital?	

Was your return to the hospital:	
<input type="checkbox"/> Unexpected? <input type="checkbox"/> Expected? <input type="checkbox"/> Caused by a new medical problem? <input type="checkbox"/> Related to what you were treated for during your last hospital stay? Comments: _____
